

Errant Ball Policy

Willow Tree Golf Club is not responsible for property damage or personal injuries resulting from errant golf balls. While errant shots are an inherent part of the game, it is impossible to fully eliminate the risks associated with golf. However, Willow Tree Golf Club is dedicated to promoting safety, sportsmanship, and cooperation. To this end, we have established guidelines to minimize the occurrence of errant shots and help identify the golfer responsible for such incidents.

Golfers are expected to demonstrate the highest levels of sportsmanship, etiquette, and consideration for others. This includes refraining from horseplay, confrontational behavior, carelessness, or reckless actions that may jeopardize the safety and enjoyment of others.

In the event of property damage or personal injury, a golf course employee may assist in identifying the golfer who struck the errant shot, if possible. However, the affected party must remain respectful and courteous to both fellow patrons and staff members at all times.

All incidents of property damage, whether intentional or accidental, must be reported to the Pro Shop promptly upon completion of the round or sooner if feasible.

Sincerely,

Willow Tree Golf Operations Team
